## Questions and answers to the inquiry for the purchase of a beltconveyor

The Ordering Party informs that it provides answers to the questions sent regarding the content of the inquiry:

1. I am asking for information about bearings and bearing housings. Are these elements also to be made of stainless steel? Is it enough that the mantle (drum, idler) and axle are made of such material?  
**A: It is enough that the mantle (drum, idler) and axle are made of stainless steel**
2. Do you have a type of belt / manufacturer that would be preferred and it would be good to use? Do you expect a modular or monolithic belt such as Habasit Clean Drive?  
**A: Food industry monolithic belt, without pointing preference of any producer.**
3. Is the scope of the offer to include the assembly of the transporter?  
**A: Yes, if the transporter is in parts, electrical connection is within the scope of the Ordering Party**
4. The belt is equipped with sidebands with a height of min. 100 mm overlapping the belt? We do not know how the bands are supposed to overlap the belt.  
**A: As shown in the figure below**

Due to the revealed questions, we decide to extend the deadline for submitting offers until **27/05/2021**
